DES POLITIQUES MEILLEURES POUR UNE VIE MEILLEURE

[OECD Guidance on Pesticide Compliance and Enforcement Best Practices]

Problem Identification

Risk management and resource allocation

Regulatory Authorities have to:

- ✓ clearly understand where the highest risks are and where to target resources.

Risk management

IMPACT				
	High (serious)	Measures needed to mitigate risk. Monitor.	Immediate measures needed to mitigate risk. Monitor.	Expedite immediate measures to mitigate risk.
	Medium (moderate)	Accept risk but monitor. Some measures may be necessary.	Measures needed to mitigate risk. Monitor.	Immediate measures needed to mitigate risk. Monitor.
	Low (slight)	Accept risk.	Accept risk but monitor. Some measures may be necessary.	Measures needed to mitigate risk. Monitor.
		Low (Unlikely)	Medium (Likely)	High (Very Likely)
			LIKELIHOOD	

Compliance and enforcement activities

Compliance and enforcement activity	Compliance promotion	Compliance monitoring	Responding to non-compliance
Intent	Improve regulated parties' awareness of regulatory requirements	Verify that regulatory requirements are being met	Bring a known or potential non-compliance situation into compliance
Examples	• Risk communication • Information bulletins • Reports • Seminars • Trade shows • Website • Stakeholder engagement and partnerships	• Inspections • Market surveys • Sampling	• Letters • Meetings • Orders • Recalls • Administrative penalties • Prosecutions
